

Jithinlal M

MERN Stack Developer | Full Stack Developer | RESTful APIs & Microservices

jithinlal706@gmail.com | +91-8078077405 | linkedin.com/in/jithin-lal-697182312 | github.com/JITHINLAL645

Professional Summary

Results-driven MERN Stack Developer with 2+ years of experience designing and developing scalable full-stack web applications, RESTful APIs, and microservices. Proficient in React.js, Node.js, Express.js, MongoDB, TypeScript, and modern deployment technologies. Experienced in integrating Stripe and Razorpay payment gateways, real-time WebSockets, Docker, AWS, and CI/CD pipelines. Passionate about writing clean, maintainable code following SOLID principles and Agile methodologies to deliver high-performance solutions.

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Frontend:** React.js, Redux Toolkit, Tailwind CSS, Bootstrap, Responsive Design, ARIA Accessibility
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, WebSockets, Node-Cron
- **Databases:** MongoDB, Mongoose, PostgreSQL
- **DevOps & Cloud:** AWS EC2, Docker, Nginx, CI/CD Pipelines, Vercel, Render
- **Tools:** Git, GitHub, Postman, Jest, ESLint, Prettier, Figma
- **Other:** Agile (Scrum), SOLID Principles, MVC Architecture, Microservices, Stripe, Razorpay

Professional Experience

Full Stack Developer Intern

May 2026 – Present

POKAK Technologies Pvt. Ltd.

- Working on full-stack development projects utilizing the MERN stack in a professional product environment.
- Collaborating with cross-functional teams to build, test, and deploy production-grade web application features.
- Gaining hands-on experience with enterprise-level codebases, code reviews, and Agile development workflows.

Full Stack Developer – Mentora

github.com/JITHINLAL645/Mentora

Secure video consultation and booking platform / MERN Stack

- Engineered a fully responsive React.js frontend using Tailwind CSS with a mobile-first approach and performance optimization.
- Architected a scalable Node.js and Express.js backend with RESTful APIs, JWT authentication, and role-based access control.
- Crafted mentor and mentee dashboards featuring booking management, conflict detection, and session tracking.
- Integrated real-time video calling functionality with scheduling and availability management using WebSockets.
- Executed Stripe payment gateway setup including secure webhooks and automated transaction handling.
- Launched an admin panel for user management, session monitoring, and platform analytics.
- Containerized the application using Docker and deployed on AWS EC2 with Nginx and CI/CD pipelines.

Full Stack Developer – LuxeFurnish

github.com/JITHINLAL645/LuxeFurnish

SEO-optimized luxury furniture e-commerce platform / Node.js, Express.js, MongoDB

- Constructed a high-performance Express.js backend with MongoDB and Mongoose for products, orders, and inventory management.
- Boosted SEO using server-side rendering (EJS) and structured data (schema.org) markup.
- Delivered a comprehensive admin dashboard with full CRUD operations for catalog and order processing.
- Configured shopping cart, wishlist, referral system, and secure checkout with Razorpay integration.
- Applied secure session management and middleware for role-based authorization.
- Produced a fully responsive UI using Bootstrap and Tailwind CSS.
- Deployed Dockerized application on Render and Vercel with automated CI/CD workflows.

Projects

VistaVoyage – Full Stack Travel Booking Web Application

JavaScript, Node.js, Express.js, MongoDB

- Spearheaded a full-stack travel booking application with separate user and admin modules covering home, services, blog, about, contact, user profile, and destination pages.
- Structured a RESTful backend with controllers, routes, user schema, and database configuration for efficient data handling.

- Established user profile management with edit functionality for personal information, integrated with MongoDB storage.
- Assembled an admin panel with login/signup, dashboard, user listing, and block/unblock management features.
- Incorporated travel booking modal, destination-based navigation, and search functionality to improve user experience.
- Managed project version control with Git and GitHub; completed testing, debugging, and deployment-ready setup.

Netflix Clone – React Streaming Platform github.com/JITHINLAL645/Netflix-clone

- Engineered protected routes, lazy loading, pagination, and responsive design using React Hooks and Firebase Authentication.

OLX Marketplace Clone – Real-Time Marketplace Application github.com/JITHINLAL645/Olx-Clone

- Orchestrated dynamic listings using Firebase Firestore and Cloudinary image upload with React Context API.

React Redux Admin Dashboard – User Management System github.com/JITHINLAL645/Redux-Usermanagement

- Delivered an accessible CRUD dashboard using Redux Toolkit, Express.js APIs, MongoDB, and Cloudinary.

UI/UX Design (Figma)

Mentor Consultation Platform – Figma UI Design

- Crafted responsive layouts for landing page, mentor listing, booking flow, and user interaction screens with interactive prototypes and reusable component libraries.

Furniture E-Commerce Store – Figma UI Design

- Produced product pages, category sections, cart flow, and homepage layouts with reusable components and structured design systems for scalability.

Bridal Dresses E-Commerce Store – Figma UI Design

- Conceptualized a luxury bridal fashion application including homepage, product showcase, cart, and checkout screens with clickable prototypes and organized design assets.

Education

MERN Stack Developer Program *2024 – Present*
 Brototype, Calicut, Kerala

Bachelor of Arts in Economics *2020 – 2023*
 Kannur University, Kerala
