

Jithinlal M

MERN Stack Developer | Full Stack Developer | RESTful APIs & Microservices

jithinlal706@gmail.com | +91-8078077405 | [linkedin.com/in/jithin-lal-697182312](https://www.linkedin.com/in/jithin-lal-697182312) | github.com/JITHINLAL645

PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with 2+ years of experience designing and developing scalable full-stack web applications, RESTful APIs, and microservices. Proficient in React.js, Node.js, Express.js, MongoDB, TypeScript, and modern deployment technologies. Experienced in integrating Stripe and Razorpay payment gateways, real-time WebSockets, Docker, AWS, and CI/CD pipelines. Passionate about writing clean, maintainable code following SOLID principles and Agile methodologies to deliver high-performance solutions.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Redux Toolkit, Tailwind CSS, Bootstrap, Responsive Design, ARIA Accessibility

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, WebSockets, Node-Cron

Databases: MongoDB, Mongoose, PostgreSQL

DevOps & Cloud: AWS EC2, Docker, Nginx, CI/CD Pipelines, Vercel, Render

Tools: Git, GitHub, Postman, Jest, ESLint, Prettier, Figma

Other: Agile (Scrum), SOLID Principles, MVC Architecture, Microservices, Stripe, Razorpay

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern

May 2026 – Present

POKAK Technologies Pvt. Ltd.

- Execute full-stack web development tasks utilizing the MERN stack within an enterprise product ecosystem.
- Collaborate actively with cross-functional engineering teams to build, test, and deploy production-grade software features.
- Participate in rigorous code reviews, technical documentation, and Agile sprints to ensure high codebase quality.

MAIN PROJECTS

Mentora | *Secure Video Consultation & Booking Platform* | MERN Stack github.com/JITHINLAL645/Mentora

- Engineered a fully responsive React.js frontend using Tailwind CSS with a mobile-first approach and performance optimization.
- Architected a scalable Node.js and Express.js backend with RESTful APIs, JWT authentication, and role-based access control.
- Constructed custom mentor and mentee dashboards featuring conflict-free booking engines and session tracking workflows.
- Integrated real-time video calling functionalities and multi-user synchronization modules utilizing WebSockets.
- Configured secure Stripe payment gateways alongside automated webhook validation systems for transaction flows.
- Created an administrative console for centralized user onboarding management, session audit logs, and business analytics.
- Containerized the architecture with Docker and deployed the infrastructure across AWS EC2 instances via Nginx and automated CI/CD tools.

LuxeFurnish | *SEO-Optimized Luxury Furniture E-Commerce Platform* | Node.js, Express.js, MongoDB github.com/JITHINLAL645/LuxeFurnish

- Orchestrated a high-throughput Express.js core backed by MongoDB and Mongoose ODM for inventory lifecycle logic.
- Optimized organic application discoverability by implementing Server-Side Rendering (EJS) and rich schema.org structured snippets.
- Delivered a comprehensive admin dashboard with full CRUD operations for catalog and order processing.
- Enforced safe multi-tier checkouts by synthesizing cart controllers with secure Razorpay payment gateway interfaces.
- Applied secure session management policies and strict route-guarding middleware to achieve role-based authorization.

- Designed a fully responsive UI using Bootstrap and Tailwind CSS.
- Provisioned continuous delivery pipelines to roll out Docker images smoothly onto Render and Vercel cloud environments.

VistaVoyage | *Full Stack Travel Booking Web Application* | *JavaScript, Node.js, Express.js, MongoDB*

- Pioneered a full-stack booking system deploying dedicated user/admin portals spanning interactive profiles, destination feeds, and blogs.
- Structured a RESTful backend with controllers, routes, user schema, and database configuration for efficient data handling.
- Programmed scalable profile-management modules utilizing optimized MongoDB write/update query structures.
- Assembled a protected master admin panel managing site signups, global user directory lists, and block/unblock security controls.
- Incorporated travel booking modal, destination-based navigation, and search functionality to improve user experience.
- Managed version control with Git and GitHub; completed testing, debugging, and deployment-ready setup.

MINI PROJECTS

Netflix Clone | *React Streaming Platform* github.com/JITHINLAL645/Netflix-clone

- Established route protection mechanisms, component lazy loading, item pagination, and responsive designs via Firebase Auth and React Hooks.

OLX Marketplace Clone | *Real-Time Marketplace Application* github.com/JITHINLAL645/Olx-Clone

- Formulated fluid classified listings using Firebase Firestore databases paired with Cloudinary cloud storage solutions.

React Redux Admin Dashboard | *User Management System*github.com/JITHINLAL645/ReduxUsermanagement

- Developed an accessible CRUD dashboard using Redux Toolkit, Express.js APIs, MongoDB, and Cloudinary.

UI/UX DESIGN (FIGMA)

Mentor Consultation Platform | *Figma UI Design*

- Designed responsive layouts for landing page, mentor listing, booking flow, and user interaction screens with interactive prototypes and reusable component libraries.

Furniture E-Commerce Store | *Figma UI Design*

- Created product pages, category sections, cart flow, and homepage layouts with reusable components and structured design systems for scalability.

Bridal Dresses E-Commerce Store | *Figma UI Design*

- Conceptualized a luxury bridal fashion application including homepage, product showcase, cart, and checkout screens with clickable prototypes and organized design assets.

EDUCATION

MERN Stack Developer Program <i>Prototype, Calicut, Kerala</i>	2024 – Present
Bachelor of Arts in Economics <i>Kannur University, Kerala</i>	2020 – 2023
